

GenStone®

The Beauty of Stone Made Easy.

Upgrade with
GenStone®

Perfect for residential, commercial & industrial projects such as: Homes, offices, warehouses, businesses, garages, barns, retaining walls, accent walls, patio enclosures, hot tubs, foundations & steel buildings.

- **Ease of Installation...**

Simple, mortarless installation. Saves time and money for the do-it-yourselfers as well as professional contractors.

- **Lightweight...**

GenStone weighs approximately one pound per square foot, eliminating the need for heavy equipment or extra labor.

- **Durable...**

GenStone is constructed from a special structural polyurethane blend that results in an inert, closed-cell structure that is highly durable, waterproof and impact resistant. GenStone's state of the art finish protects against fading, peeling or blistering.

- **Realistic Look...**

Using real stone and stucco in our molding process we are able to maintain the look and feel of the original materials.

- **Cost Effective...**

The installation time and cost using GenStone panels (approximately 2'x4') is substantially less than conventional masonry, increasing your total savings on the project.

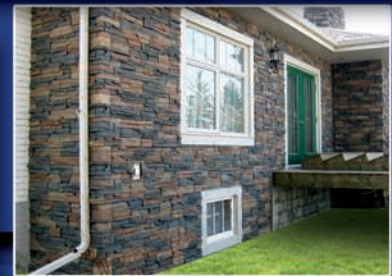

Regardless of the surface, the improvements you can make are limitless!

Check local building codes for application.

Unique finger joint system provides an invisible & seamless connection

- Unique offset end creates an invisible joint.

"Once I saw how realistic your products are, my mind was made up! Your assurances that the panels could be installed and cut with normal woodworking tools were completely accurate! I was truly amazed at the ease and simplicity of installation" -Dan H.

*Colors are depicted as accurately as possible, but may vary from actual product. Viewing actual product samples is recommended.

- The Shiplap edge provides a mortarless, interlocking connection to the next panel.
- Adds significant insulation properties not available with masonry, wood or vinyl siding.
- The proven design allows for installation on almost any surface.
- Fast installation with minimal seams.
